So Many New Things!

Our customers are a great help..if they see something we don't carry – They Ask! And here's a few of our new products...

Ground Walnut Shells

Used by Jewelry makers, gunsmiths, reptile owners and more! But you can use them for pincushions or neck wraps – Remember the Holidays are just around the corner! Shells are an excellent heat conductor and the oils keep pins from rusting.

Best Press Alternative

There hadn't been a new product for ironing in years - and if you are so sick and tired of using aerosol starch! So now there's Best Press, a clear, crisp spray starch with a lovely scent that makes ironing more enjoyable. It's in a non-aerosol can, so it's environmentally friendly and you can see how much is left, too.

With Best Press, there's no flaking, clogging, or white residue on dark fabrics. A

special stain shield protects fabrics, and the product helps resist wrinkles. Best of all, it's more effective than any starch you've ever used. Try Best Press today- you will never go back to ironing with spray starch

Quilt Soap Orvus paste contains no phosphorus to harm quilts and other delicate fabrics. Excellent for silk and treasured needlework.

Vintage Textile Soak is a product that quilt shops, antique dealers and quilt & linen collectors love because it safely removes yellowing and/or brown spots that can develop on vintage quilts, quilt tops, wedding dresses, christening gowns, and linens of all kinds after years of contact with the oils in wood as a result of being stored in cedar chests, linen closet or dresser drawers.
